

PUMIN (LOUIS) YUVACHARUSKUL

Co-Founder & CEO Thailand
Eatigo International Pte. Ltd.

Born in Thailand in August 1984, Pumin has proved to be an outstanding entrepreneurial role model of his generation.

After graduating from the University College of London, UK, with a Master's degree in Engineer, Electrical and Electronic Engineering with Computer Science, Pumin returned to Thailand in 2007. He founded, and continues to manage, Nanology Co., Ltd., which produces and distributes 'Pi Water', creating new genre of healthy drinking water in Thailand. The product has been accredited with the Prime Minister's Award as well as the G-Mark and DEmark design awards in Thailand.

Full of energy and enthusiasm, Pumin also helps out his sister, Milin Yuvacharuskul as Technical Consultant of "Milin", leading fashion brand, since 2009.

Pumin is a co-founder and CEO Thailand of Eatigo Co., Ltd., which aims to revolutionize the F&B industry by providing yield management opportunities for both stand alone and hotel in-house bars and restaurants in Asia and beyond.

Although he seems to be a workaholic, he has a passion for sports and enjoys participating in squash tournament whenever he can.
